TARANAKI

FUTURES

taranakifutures.co.nz

Taranaki Snapshot

- × Strong economy - highest regional GDP per Capita in NZ and lowest unemployment rate in North Island (Taranaki Daily News 9/6/14) **but...**
- × Ageing population
- × Disconnect between educational and vocational reality

Early 2012... How we began

Vocational Pathways need to improve....

“all of our drivers have grey hair”

A group of us got together and Taranaki Futures was formed.

Early 2012... Why we began

Information: We need to improve links between families, schools, tertiary and industry.

Equity: We need to improve vocational pathways for the 71% of school leavers that do not continue on to university.

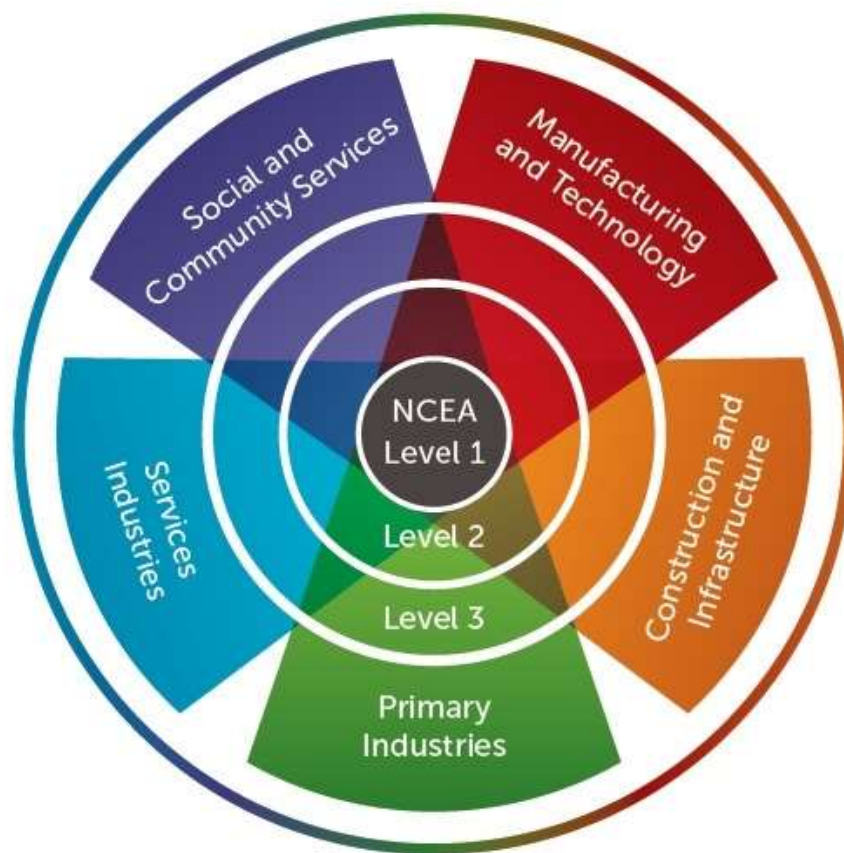

We need to rebalance perceptions of university
and trades training

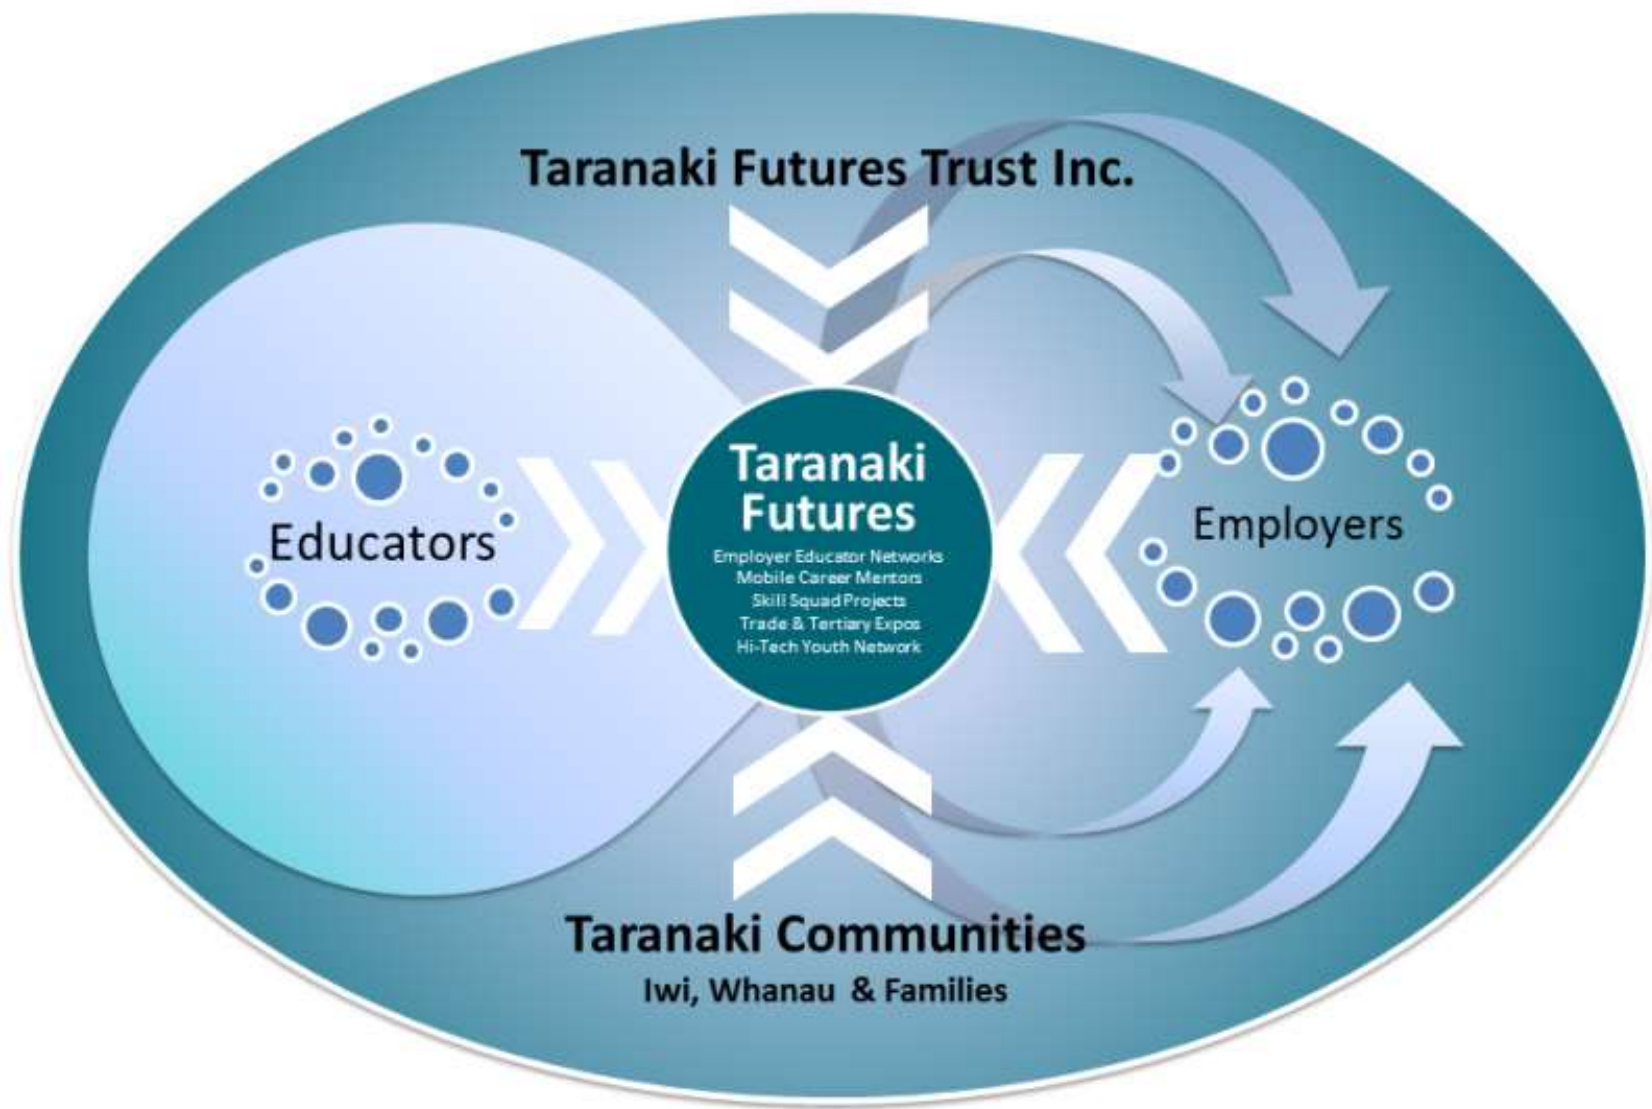

We need to enable “line of sight” learning

We need to integrate: Vocational Pathways and Youth Guarantee

Our Strategic Plan for 2014

Organisation

Partnerships

The image shows a screenshot of a strategic plan document. It features a central quote in a dark green box: "Tasmanian Fisheries is about making commercial fish and shell harvesting the focus of being the island." The document is organized into several columns with different colored headers (pink, green, orange, purple) and contains various text blocks and tables.

Have your say... taranakifutures.org.nz

Strategic Plan Consultation

Taranaki Futures are currently undertaking development of our strategic plan that will guide our activities into the future.

Take advantage of the opportunity to provide input to our DRAFT Strategic Plan and have your say in one of the more significant initiatives of 2014.
