ObjectiveA discussion

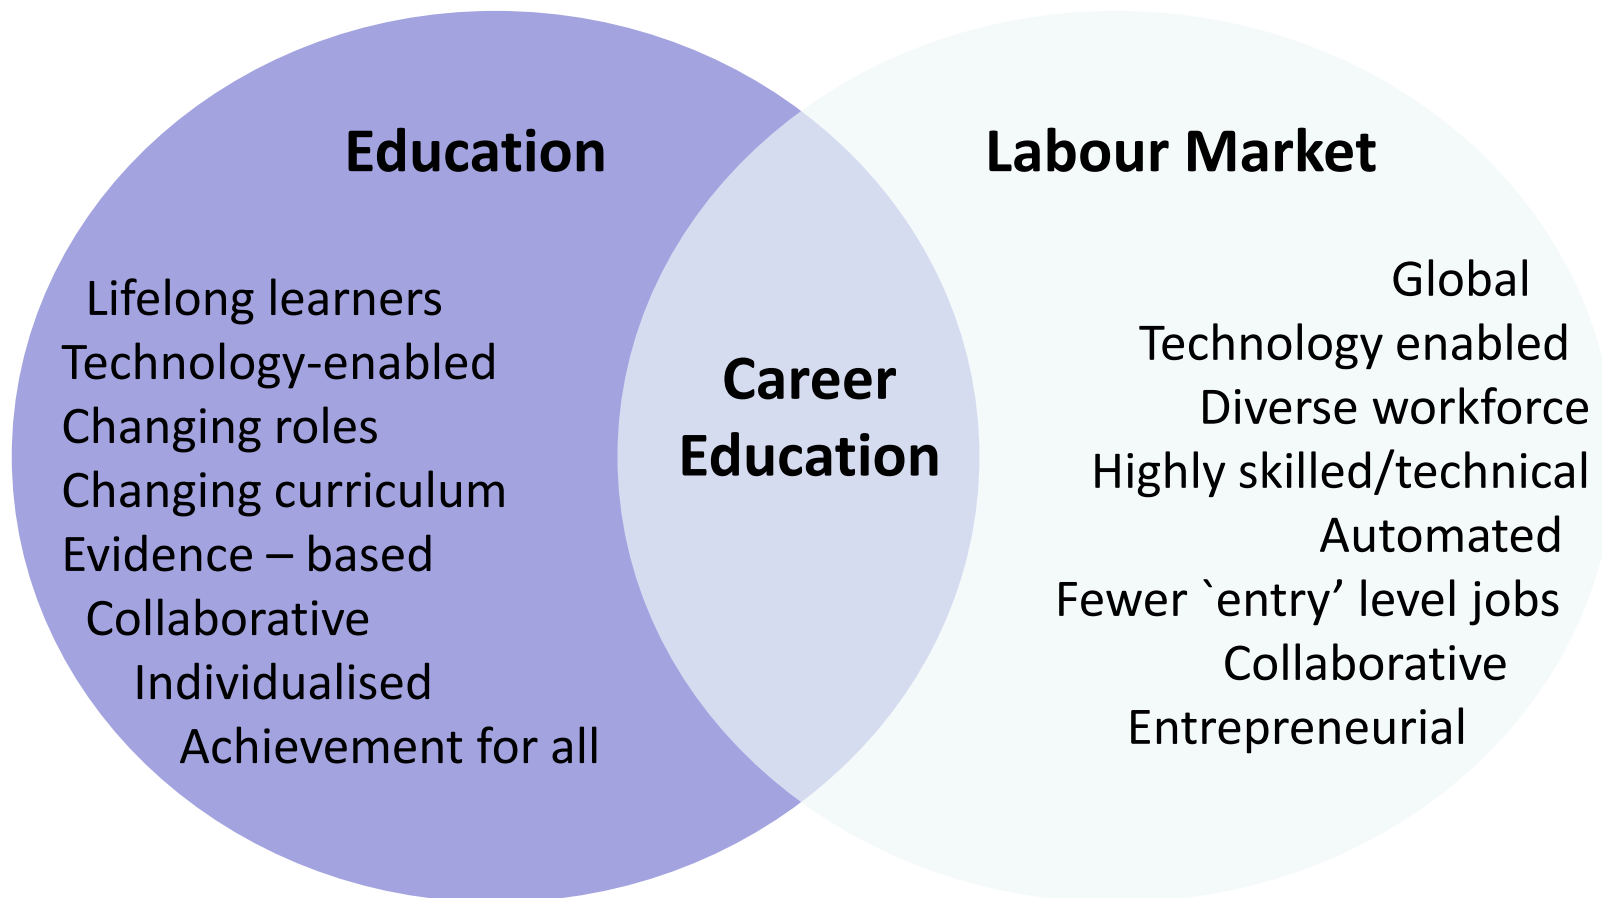

- To discuss where career education career education is going in the future.
- Capture, collate and share our thoughts.

What is career education?

“Career education consists of planned, progressive learning experiences that help students develop career management competencies that will assist them to manage their lives.”

Career Education and Guidance in New Zealand Schools, MOE 2009

Key drivers

From there to here

There	Here
Career Decision	Career Development (competencies)
Career Advisor	Career leader/facilitator All staff career educators
Few pathways – many students	Multiple individual pathways
Exit orientated	Integrated in curriculum and pastoral systems
In person delivery	Some technology enabled delivery
One size fits all	Customised approaches
Delivery in silos (role, subject, school, geography)	Collaborative partnerships

From Here to Where?

Themes going forward

Where? (Next 5 years)

Teaching career management competencies

From advisor to leader/facilitator

Supporting multiple individual pathways

Taking career education school wide

Technology enabled delivery

Meeting the needs of diverse learners

Working across boundaries

Working together...20 minutes

- Get into the discussion group that interests you
- Assign a scribe – with tidy writing
- Discuss two questions within the time allocated

Questions

Thinking about your table's theme discuss the following questions:

1. Where have you seen a great example of your `theme'? What were the results?
2. What could your `theme' look like in five year's time?

Next steps

- Careers New Zealand will collate the discussion notes and report back to conference organisers to share with participants. Goal is that feedback forms the basis of an ongoing professional conversation about the future of career education.
